

# “OWSK URBAN” ONE-WAY TRIP EDGE PLOW SERIES

“QUALITY by DESIGN”

## Everest OWSK Urban One-Way Trip Edge Snow Plow

Our OWSK Urban includes a four torsion spring trip edge design, a heavy duty doubled punched base angle @ 8” and 12” centers, a 10 gauge break formed moldboard skin plate, and adjustable moldboard attack angles.

The push frame is comprised of a moldboard strut, lift chains, and a 31” spacing oscillator bar which adjusts plow articulation to road contour.

Models offered include manual reverse, hydraulic reverse, and 11’ and 12’ lengths.

At a 35” angle, the OWSK Urban produces a 9’ cleared path for 11’ models and a 10’ cleared path for 12’ models.
