

“PT QC-M” POWER TILT QUICK COUPLING HITCH

“QUALITY by DESIGN”

- ▶ All hydraulic rapid coupling system which allows attachment of plow to hitch in less than 30 seconds.
- ▶ Male section lift cylinder 4” bore by 12” stroke double acting nitrided cylinder with 2-1/2” double acting locking cylinder.
- ▶ 5/8” heavy duty cheek plate kit with 5/8” bumper plate ensure good load transfer and carrying for heavy duty use.

- ▶ Tilt kit allows the hitch to tilt forward from the base pin ear location to accommodate forward tilting truck cabs and engine hoods.
- ▶ Chain hooks for securing female section to plow push frame supplied.
- ▶ One man operation from cab (if used with reversible plow, plow reverse hoses need to be manually connected).

EVEREST EQUIPMENT CO.
HEAVY- DUTY SNOW & ICE CONTROL

"PT QC-M" POWER TILT QUICK COUPLING HITCH

Driver remains safely in cab.

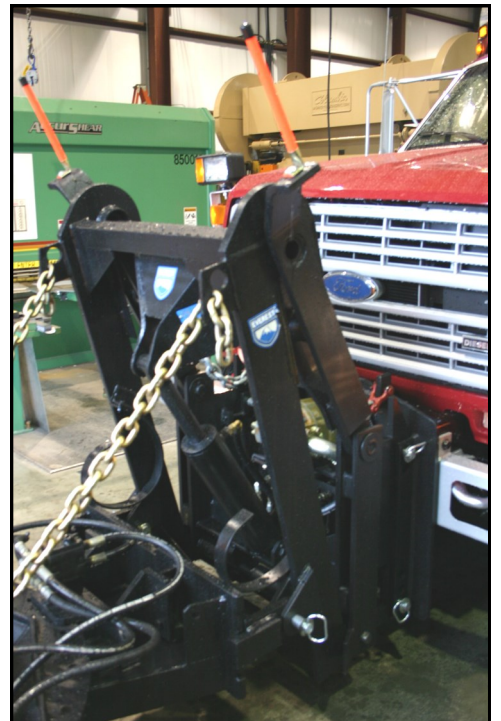

Hydraulic cylinder acts to automatically pick up the hitch section secured to the plow push frame. Hidden locking cylinder secures pin ears in place. No pins to wrestle.

Driver has a work ready unit in mere seconds. Approach guides help the driver line up the male and female section during coupling.

Dependability. Withstands heavy duty, continuous plowing service.

Versatile. Female portion can be mounted on most plow push frames produced by major plow manufacturers. Equip your fleet with one way plows or reversible plows with a safe, fast and automatic coupling system.
